RIGA TOKEN

Whitepaper Version 1.0 - June 2025

1. Introduction

Riga Token (RIGA) is a weather-reactive blockchain reward system that distributes tokens based on real-time rainfall. Built on a custom WordPress-based infrastructure, the system promotes environmental awareness and digital interaction through a blend of:

- KYC verification
- Referral rewards
- Social media engagement
- Weather-based emissions

Goal: To gamify weather and create a reward economy based on nature, social action, and blockchain. Future expansion includes DeFi features, sustainability funding, and community-based climate projects.

2. Core Concept: "When it Rains, You Earn"

Users are grouped into weather zones (based on geographic proximity). When rain is detected in a zone:

- All verified users within that zone receive RIGA Tokens.
- Zones are formed by clustering users within a 10 km radius.
- Token distribution considers: Live weather data, KYC status, Referral bonuses, Remaining token supply.

3. Token Utility

RIGA Tokens can be used to:

- Unlock direct chat (10 RIGA per contact)
- Send token gifts (5% fee sent to Admin Wallet)
- Join raffles and live events
- Access premium features (Phase 2+)

4. Key Features

4.1 Rain Rewards

- Hourly API weather checks
- Users in rain zones receive RIGA Tokens

4.2 KYC Verification

- First 1,000 users: FREE
- After 1,000: 10 USDT/year (TRC20)

4.3 Referral Rewards

- 10% bonus on referred users' rain rewards
- 5% goes to referrer (from pool)
- 5% stays with referred user

4.4 Gifting & Chat Unlock

- 5% fee for gifts
- Chat unlock requires sending 10 RIGA

4.5 Admin & Supply Management

- Initial Supply: 8,200,000,000 RIGA
- Admin dashboard: KYC approvals, withdrawal requests, reset wallet, token logs

4.6 Social Media Claim (Riga Social Claim)

- Claim RIGA by: Sharing on Facebook, Posting on TikTok/X, Joining Telegram
- Admin approval required

5. User Interface & Dashboard

- Rain-themed design with animation
- Dashboard: Token balance, Referral link, KYC status, Chat unlocks, Rain forecast

6. Admin Wallet

- Collects 5% fees from gifts & chat unlocks
- Admin can reset balance manually

7. Tokenomics (8.2 Billion RIGA)

- Rain Rewards: 40% - 3.28B
- Referral Incentives: 10% - 820M
- Liquidity & Listings: 20% - 1.64B
- Development: 15% - 1.23B
- Marketing: 10% - 820M
- Core Team: 5% - 410M

8. Security & Anti-Abuse

- KYC required, IP/city tracking, token limits, admin-verified claims

9. Roadmap

- Q2 2025: MVP Launch
- Q3 2025: Social Claims, Admin Wallet
- Q4 2025: Mobile App

- Q1 2026: DEX, NFT Raffles

- Q2 2026: Climate DAO

10. Token Sale Phases

- Private Sale: Donors & Whitelist

- Verified Sale: KYC Users Only

- Public Presale: All (Anti-whale limit: 1 per wallet)

11. Transparency & Technology

- Real-time weather API

- Geolocation verification

- Backend: PHP + MySQL

- Frontend: Animated rain UI

- Blockchain: Solana (Planned)

12. Community & Growth

- Website: rigatoken.online

- Platform: rewards.rigatoken.online

- Socials: TikTok, Telegram, Instagram, X

- Partners: Local and global initiatives

13. Conclusion

Riga Token is not just a digital currency - it's a nature-powered economy. It rewards people for being present in the rain and builds a sustainable system based on trust, weather, and verified engagement.

"Rain becomes Revenue. Nature becomes Network."
